ABOUT US

1. Company Profile

Rustic Employment and Social Trading Pvt. Ltd. is a registered company with Ministry of companies' affairs, Govt. of India, formed by the professionals to provide goods and services to those sections of societies who could not approach modern market for their day to day needs.

The professionals are a young, dynamic, and driven company's affair/works with innovative ideas supported with up to date technologies in a healthy and competitive market environment to contribute financial assistant to the very existence of individuals in the societies and its people at large. The salient objectives of this company are to create all round developments particularly financial independency of individuals to all sections of societies through the networking among people to make their life financially successful and self dependent. The company has been engaged in Research and Development wings to trace out the weak points by which our individuals could not find the opportunities to avail various schemes being launched by the Govt., autonomous bodies and NGO(s). Our wing's dedication is to find those educated young force and provide them simple and lucrative opportunities so that they can too find jobs for sustenance. With this aim the company's features are social oriented based on the policies of no profit and no loss just to help of common people, our professionals to come and engaged themselves in research over the multilevel marketing prospects and try to take the given opportunities to get themselves success and create a successful networking social business to help the societies and its people who need them urgently.

2. Company Information:

A. Product

The companies policies under this schemes are to produce goods and services for those who need them badly for this the company is underway to manufacture some of the requirements of our individuals and planning to install production unit in rural and country side areas. Just to give them live the company needs capital along with time to establish in the manufacturing of essential commodities.

Apart from above the company is desirous to provide cheap and cost effective service to individuals of the societies and accordingly decided to enter in to marketing trade by acquiring products and services on bulk basis and sell on minimum support price to provide those who come at the company's outlet point to avail the services. For this the company has got long list and some of them are to launch our own products such as common bags, carry-on-bags, trolley bags, bed sheets, T-shirts, and other domestic commodities and things. The company is planning to tie up with manufacturing Companies for their products as like- solar lamps, cosmetics and beauties products, food products, stationary, Sari, Jeri sari, suite lengths, supplements, and other commonly used things.

B. Education

As the dynamic professionals want to achieve all these objects in short span of time but everybody know that it could not be achieved in a day or two, it needs the hands of time on continuation basis. Thus our aim to ride on horse of all round developments, so that anyone can be acquired and be capable to make the sense of financial understanding about the developments scenario taking place within the societies by constantly changing and happening in and around the societies within India and its neighbouring counties.. Our Research and Analysis wing has planned well to provide easy help in the field of academic ambitions to those who aspired professionals' skills and training by admitting themselves in the Renowned institutions within India and abroad, the company is planning to provide coaching classes to them from all standards and help them to take admission in Under Graduate Programs, Post Graduate Programs, Diploma Programs, and Certificate Programs in vocational trainings.

C. Our Goals:

The company's motive is to become a leading brand in providing financial help for self dependency of the individuals in this growth oriented societies of materialistic ages and the

Industrial societies, to provide every members some kind of monitoring adds with an employment opportunities to engage in an effective, and pleasurable learning experiences so that it increases knowledge, enhances performance and professional skills to adapt and take financial value in the workplaces, thereby contributing to the evolution of the societies. The very human goals are to make comfortable in sustaining food, cloths, shelters, educations and health are some essential needs to establish themselves as a Global Pioneer in the Industrial Societies, to have significant shares in Research, Developments and Training with a Global markets, to redefine the definition of humanities and to raise the standards of livings by consuming products and services, to live life personal dignities and moral values, etiquettes, business environmental in ethical societies which are divided in enumerable sections.

D. Mission

The aim is social the mission is to drive poverty from the societies by generating sustainable livelihoods and create atmospheres to provide a permanent jobs and opportunities through the very common methods & understanding ways of selling and manufacturing the products and services on direct marking demands by social networking among common people.
